Experience

Google / UX Designer 3

Aug. 2022 - Present • Bangalore, India

I am part of a global team responsible for managing both physical and virtual platforms and resources that enable **Cloud, AI/ML, and Tech Infra (TI)** initiatives for Google. My work empowers Google to manage the end-to-end lifecycle of planning, monitoring, controlling, and optimizing fleet spend with transparency, accuracy, and efficiency.

By improving predictability and accountability, our efforts contribute to reducing overall fleet costs. Our focus on meticulous resource management ensures that Google's infrastructure runs smoothly, efficiently, and sustainably.

My responsibilities included leading the UX process for the project, UX research, conducting UX workshops, process strategy, concept design, UI design, prototyping, usability testing, design review, and cross-team collaboration for product development.

Honeywell International / Senior UX Designer

Aug 2019 - Aug 2022 • Bangalore, India

I worked in the Honeywell Connected Enterprise (HCE)-Connected Plant domain, where my responsibilities were to deliver a world-class user experience for the Honeywell Connected Plant (HCP) portfolio.

During my tenure, I've supported **24+ major & minor product releases**, worked on **3 projects & 10+ new product ideas**, streamlined the UX engagement process for the teams, helped teams achieve **8-figure business** through **15+ customer acquisitions**.

HCL Technologies / Senior UX Designer

Oct 2018 - Aug 2019 • Chennai, India

I Designed a Centralized Data Manager platform for Roche (Hoffmann - La Roche) in order to connect different analyzers (instruments) of the x800 family which consists of Cobas 6800/8800 and STING analyzers. I also conducted user testing sessions to analyze and measure the user experience of a product for **IEC 62366-1** regulatory compliance.
